EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims

In claim 1: on line 8, "a" has been replaced with -- an --.

In claims 2 and 3: on line 1, "major surface" has been replaced with -- at least one of said major surfaces --.

In claim 2: on line 2, "the" has been replaced with -- an --, otherwise "the angular spectrum" recited has no antecedent basis.

In the Specification

Page 8: in the equation (5), after "----" of the last term, -- . --(period) has been inserted; and on line 3 of the second full paragraph, "then" has been replaced with -- than --.

Page 11: in equation (9), after the long "-----", -- . --(period) has been inserted.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Best prior art noted is Janeczko et al patent which teaches every limitation called for in independent

claim 1, except for the coating on one of the two major surfaces, the coating having an angular sensitive characteristic, wherein this characteristic is, as indicated on page 8 of the disclosure, to prevent undesired reflections and ghost images. In light of this difference, it is to be concluded that the present invention distinguishes over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LOHA BEN whose telephone number is (571)272-2323. The examiner can normally be reached on M-SAT, generally between 12:01 p.m. to 8:00 p.m.
